

South West Clubs League

Participating Clubs

Bath Classic, Dartmouth, Devon Classic, Dorset Classic, North Devon Atlantic, South Coast Classic

Aims

- To promote participation in classic and twinshock scrambling.
- To encourage riders of all abilities to enter scrambles organised by other Clubs in the South West.
- To encourage both Club and AMCA membership.

How it will work....

- All AMCA licenced riders will gain points for their Club when they finish a race. The points will be added up after the results are known and the Club's position in the South West League revised and published.
- The final race of the season hosted by the Devon Classic Scramble Club, will be a **double points** meeting.
- The League will not have a prize attached to it, merely bragging rights! (there **may** be a sponsored prize of banners/tape/flags etc. to the winning club – tbc).

The small print....

- As the maximum number of riders on a starting line is 36, the finishing positions of all riders will be scored with 36 points for 1st, 35 points for 2nd, and so on. DNFs will not score.
- **Only AMCA licence holders' points will count.**
- Every race will be scored down to the last rider to finish.
- For twinshock races, the ability-based, 'group system' used by the Dorset Classic Scramble Club will be used at the majority of scrambles.
- Where classes are combined, each position will be scored with respect to the class entered. E.g. pre-'74 with pre-'83 125 would be scored as two separate races.
- Not all clubs will run all race groups at each meeting.
- Riders need to ensure their club details are correct at signing on, as this will be the club who will be awarded the points should the rider complete the race.
- Transponders are to be used in all eligible races.
- **Non-AMCA licenced riders and riders with licences registered with clubs outside of the South West League will be allocated points but they will not contribute to a Club's total. Other cases include...**
 - If a rider is a member of 2 or more **SW** clubs, **only** the club on their AMCA licence can be used for the purpose of the league.
 - If a rider is a member of one or more SW clubs, but the affiliated club on the licence is **outside** the SW, the rider's points must be allocated to the **same SW club all season.**

And finally....

- Full results, **including club details of all riders**, will be sent to **Craig Kelly of the Dartmouth and District Classic MCC**, within 14 days of the event, who will produce the League positions and send them out to all participating Clubs.

I am sure questions will arise. I will publish a FAQ to accompany this document once feedback is received.
